

# AGRICULTURE WORKS HARD FOR ▶ CALUMET COUNTY

Family-owned farms, food processors and agriculture-related businesses generate thousands of jobs and millions of dollars of economic activity for Calumet County, while contributing to local income and tax revenues.

## Agriculture's annual impact:

### WHAT DO OUR FARMS PRODUCE?

### HOW MANY PEOPLE DOES AGRICULTURE EMPLOY?

### WHAT IS THE ECONOMIC IMPACT?

### HOW MUCH TAX DOES AGRICULTURE CONTRIBUTE?

### WHO OWNS THE FARMS?

### HOW MUCH IS SOLD LOCALLY?

### WHO TAKES CARE OF THE LAND?

## THE AGRICULTURE SECTOR BENEFITS THE ENTIRE COUNTY

Calumet County has a diverse landscape, which allows for various agriculture sectors to succeed. While dairy is the leading commodity in the county, it is complemented by grain crops, forages, vegetables, diversified livestock, and more. Of these farms, 96% are family-owned. The majority of the acres harvested in Calumet County are corn and hay forages used to feed the milking cows and young stock.

### Did you know?

**CALUMET COUNTY IS**  
**No. 3** in Wisconsin's  
**sheep & goats industry**

**Extension**  
 UNIVERSITY OF WISCONSIN-MADISON

The University of Wisconsin-Madison Division of Extension is part of the local and statewide network of organizations and agencies that support Wisconsin's \$104.8 billion agriculture industry. Extension helps enhance the economic impact of agriculture by providing research-based information that increases farm profitability, improves food safety, reduces environmental impacts and expands agribusiness networks.
