Questions

Please briefly describe your community. Provide specific information about your downtown business district, places of interest/tourism attractions, or other places of note that conference attendees could experience:

A committed local team of partners is required for a host community. Do you have a committed local team of partners willing to actively assist with local logistics, venue sourcing, supplies, equipment, printing, etc.? Please list local personnel/organizations who will serve on the local steering committee for the conference.

Please describe how your community meets each of the essential infrastructure elements required for a successful CEC conference, including walkable spaces, venue capacities, catering services, Wi-Fi connectivity, lodging, and local entrepreneurial support.

The conference will last two days and be held sometime in 2025. Is there a certain time of year your community would like to host the conference, or is there a time that your community would not be able to host the conference?
